

Process NPD[®]

Hard Surface Disinfectant

The Process NPD family of quaternary ammonium disinfectants are one-step cleaners/disinfectants formulated for use on hard, non-porous surfaces. Process NPD has a broad spectrum of germicidal and virucidal claims including many animal research related claims.

- > Contains no perfumes or dyes that could interfere with critical research studies or manufacturing processes
- > Phosphate-free formulation
- > Broad spectrum activity even in hard water
- > Supported by the STERIS Technical Services Group

Applications

- > Pharmaceutical, biotechnology and medical device manufacturing areas and comparative medicine facilities
 - Processing areas including floors, walls, ceiling, countertops, BSL hoods, carts and equipment
- > Research and laboratory facilities
- > Any area where contamination control is a necessity

Features and Benefits

- > Broad spectrum microbiological efficacy
- > Contains no perfumes, dyes or phosphates
- > Formulated with surfactants to improve disinfectant efficacy
- > Manufactured in accordance with cGMP at STERIS Corporation with complete lot traceability
- > Certificates of analysis contain irradiation and sterility results for sterile disinfectants

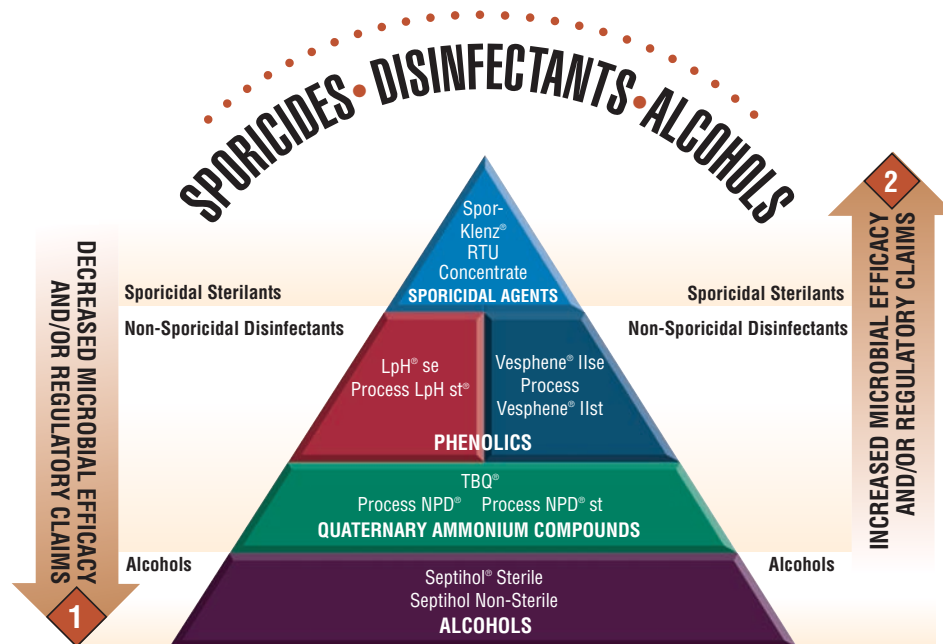

Dilution Rate

Dilution Rate: 1:256 (1/2 oz. per gallon)

Process NPD

Hard Surface Disinfectant

1. PRODUCTS AT THE BASE OF THE PYRAMID ARE MOST FREQUENTLY USED AND ARE GENERALLY NOT SPORICIDAL.
2. PROGRESSION UP THE PYRAMID INDICATES STRONGER PERFORMANCE OVERALL AND A BROADER SPECTRUM OF CLAIMS.

Ordering Information

Process NPD One Step Germicidal Detergent

1 gallon bottle x 4 per case:	6390-08
30 gallon keg:	6390-02
55 gallon drum:	6390-01

Process NPD st Sterile One Step Germicidal Detergent

Filtered and gamma irradiated to ensure sterility and double bagged for ease of introduction into aseptic areas. The unit dose package provides the correct pre-measured concentrate for the correct dilution every time.

1 ounce pouch x 144 per case:*	1605-28
1 gallon bottle x 4 per case:	1605-08

* produces 2 gallon use dilution
